Getting Started with Key Word Sign Basic Workshop

Key Word Sign can help people understand what is being said to them, and can be a way of sending a message when someone's speech is unclear or still developing.

Key Word Sign is the combination of manual signs and natural gestures, used to support communication. It is designed for use with children and adults who have communication difficulties. This workshop provides a fun and interactive signing experience for parents or carers of a child with communication difficulties.

This workshop is led by an EarlyEd speech pathologist and certified Key Word Sign presenter.
