

INTENSIVE INTERVENTION - SCHOOL HOLIDAYS

Can't find a suitable time in the week for therapy or intervention sessions for your child?

*Is your child too tired after school to have intervention appointments?
Are you working during the day making getting to intervention difficult?*

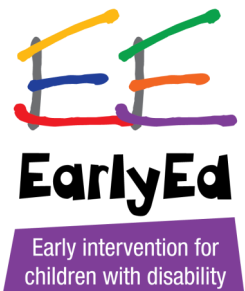

EarlyEd is taking expressions of interest for intensive individualised sessions for school aged children during the October and January school holidays.

The intensive intervention program for each child involves:

- Individualised goal setting for any developmental area or functional area with your key worker or individual intervention staff, with involvement of family / carers to plan together and support ongoing outcomes.
- 1:1 intervention session with your child's own individual therapist (occupational therapy, physiotherapy, speech pathology and special education).
- Individual sessions in a group setting (up to 1 or 2 other children in the room providing opportunities for interaction).
- Variety of fun activities that match your child's interest.

Location: Sessions can take place at your local EarlyEd centre (North Sydney, Forestville, Kingswood or Pendle Hill)

Time: Session blocks will run for 2—3 hours based on your child and family's needs.

We are now taking Expressions of Interest. Contact us to learn more!
