

HAND SKILLS HOLIDAY GROUP FOR PRESCHOOLERS & SCHOOL AGED CHILDREN

April
2019

3 Day School Holidays Program—Kingswood

Does your child have difficulty using their hands for tasks such as writing, cutting and self-help skills?

Does your child:

- Tire easily when writing or cutting?
- Have trouble with dressing for example with buttons or zippers?
- Find it difficult to concentrate and maintain attention?
- Need help to open and close lunch boxes and drink bottles?
- Have poor motor planning skills?
- Appear uncoordinated or clumsy?

Developing hand skills is especially important for children about to start school or just starting school. The Hand Skills group involves a range of gross and fine motor activities, which are planned to support your child's individual needs.

EarlyEd's Hand Skills program includes:

- One individual goal setting session (1 hour)
**Home visits will incur a travel cost*
- Three group sessions (1.5 hours each)

Experienced early intervention staff including occupational therapists & special educators will work with your family to develop practical strategies to use in everyday situations to support your child.
