The **TalkAbility®** program is designed for parents of verbal children on the Autism Spectrum. Verbal children with Autism Spectrum Disorder or a Social-Communication Disorder often face special communication challenges and may find it difficult to:

- Have conversations with others.
- Play with children their own age.
- Talk about things that interest someone else.
- Change a routine without becoming frustrated.

If you've noticed more than one of these difficulties in your child, the TalkAbility® program can help. Specifically designed for parents of verbal children ages 3-8 with social communication difficulties, the TalkAbility® program teaches parents practical ways to help their child learn people skills.

The program consists of:

- 9 online parent training sessions in small, personalised groups.
- 1 individual pre-program consultation for you and your child.
- 3 individual video feedback sessions for you and your child.

Program dates:

13 sessions commencing before the 8th Feb 2021 with an individual session.

9 online parent training sessions – Tuesdays 7.00pm to 9:30pm, on the following dates: February 9, 16, March 2, 9, 16, 30, April 6, 13, 27.

Dates for the 4 individual sessions to be organised individually.
