

EarlyEd

Together supporting all children... Starting early!

EarlyEd is funded for Start Strong Pathways. Start Strong Pathways offers early educational support for children before starting preschool/childcare and encourages the importance of early childhood education.

We can help by:

- supporting children in early years education
- finding playgroups, occasional care, early learning centres and toy libraries for families
- preparing children to be ready for preschool/childcare
- providing information and resources around early childhood education for families and community
